

## **SHAMBA foundation – Our Mandate**

*“We’re building ‘giving back’ into more than our mission statement - we’re building it right into our office space.”*

- Anthony Lacavera, Founder, SHAMBA foundation

### **Our Mission**

At Globalive, there are three things we’re very proud of: our track record for innovation, our corporate culture and our commitment to our community. The SHAMBA foundation not only enables Globalive employees to ‘give back’ to the community, but also plants the importance of philanthropy on the corporate agendas of young business professionals throughout the GTA in leading by example.

### **What does SHAMBA mean?**

Literally, the word ‘shamba’ means farm in Swahili, and the central idea for the SHAMBA foundation was to create a kind of ‘urban farm’ where the contributions of many hands make light work.

### **Our Goal**

The SHAMBA foundation has two goals. The first goal is to solicit and manage gifts for the purposes of making cash and in-kind gifts to qualified donees.

The second goal is to assist other registered charities in being more efficient in the administration of their charitable programs. In support of this goal, we are helping registered charities cut overhead costs by lending out the “SHAMBA Space” free of charge as well as assisting in the sponsorship solicitation process.
